

INTRODUCTION

An independent nonprofit organization established in 2018, Teach For Morocco recruits and develops promising graduates and young professionals to affect change in the country's under-resourced schools and rural communities as teachers, and to continue to work toward improving educational equity in Morocco, both inside and outside of the classroom. In partnership with the Ministry of National Education and Vocational Training, municipalities, and schools, Teach For Morocco contributes to the achievement of the goals of the Moroccan government's 2015-2030 Strategic Vision for Education Reform.

Teach For Morocco

Shaping a better future together

OUR APPROACH

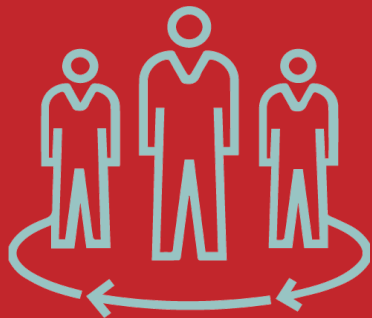

1. RECRUIT
